Board of Directors

H.E. Sultan Al Matrooshi

GROUP DEPUTY CHAIRMAN

Welcome to the Royal Investor of the U.A.E, a bonafide business lounge for the bonafide businessman. In the spirit of such, I'd like to propose the concept of the four elements for your consideration, which I believe are very important. Let's imagine life as a juggling game, in which everyone is simultaneously juggling four balls made of either glass or rubber.

These balls symbolize the aforementioned four elements of life. They represent work, family, health and wealth respectively. When the balls are being tossed in the air, it is with expectation that all will bounce back.

However, when we fail to catch the balls so that they drop to the ground, it is obvious that all balls made of glass will be smashed, irrevocably shattered into pieces. That's when we realize that the only one bouncing back is the rubber ball of work! And that's the time you recognize the value of it!

Board of Directors

Mr.Saif Hamad Saif
